EDP (NPDS) INSTRUCTION No. 103	DATED 05/06/2009
LAST EDP (NPDS) INSTRUCTION No. 102	DATED 28/04/2009

Subject : Implementation of Govt. decision on recommendations of 6th Central Pay Commission – Restructuring of RNPDS Masters.

Summary:
Restructuring of all RNPDS Masters & Software in the wake of 6th Central Pay Commission.

Consequent on receipt of recommendations on 6th Central Pay Commission for revision of pension / family pension of Pre-2006 Armed Forces and Civilians Pensioners, Govt. has modified the pay and pension structures and consequently rules and regulations related to pension are also modified. Certain fields like Last Pay, Grade Pay, Military Service Pay, X-Group Pay, Classification Allowance, Non Practicing Allowance, Rank last held are newly introduced elements in deciding the pension structure. Similarly, due to revision of Disability/Constant Attendance Allowance, fields of RNPDS masters also require changes. Since the rules have undergone a change, it has become essential to restructure the RNPDS Masters.

2. Also, it was desired by the CDA(PD) Meerut Cantt. that account number field may be increased from 12 digits to 16 digits to facilitate ECS System.

3. It has, therefore, decided to incorporate following newly introduced fields in the RNPDS masters along with the increase in the field-length of certain existing fields. The new fields are:

- Grade-Pay,
- Military Service Pay,
- Non Practicing Allowance,
- X-Group Pay,
- Classification Allowance,

- Rank last held
- Last Pay drawn.

The restructured fields are:

- Account Number field (From 12 digits to 16 digits)
- Disability Element (From 4 to 5 digits)
- Disability Commutation (From 4 to 5 digits)
- Constant Attendance Allowance (From 3 to 4 digits)

4. All the four masters namely History master, Pay master, Payment Line master and Monthly master will be restructured. The newly introduced fields i.e. Grade-Pay, Last Pay drawn, Military Service Pay, Non Practicing Allowance, X-Group Pay, Classification Allowance, Rank last held in RNPDS Masters will be captured through T. Sheet (for new Cases), thru GCF (for existing cases) and thru Corr. PPO (for existing cases intimated by PSA). **(Please refer Annexure A).**

5. Introduction of new fields result in changes in the Printed Formats of T-Sheet, Corr. PPOs and GCF as well changes in Data Entry Formats thereof. For facilitating Decentralised DPDOs, a soft-copy of Data Entry formats & printed formats of T-Sheet, Corr. PPOs and GCF is attached along with RNPDS Software for the processing of pension schedules for the month of June 2009. However, a minor change in Correction Format of Trans-Code-32 for account number field increasing field length from 12 to 16 will be made by Decentralized DPDOs on their own. **(Please refer Annexure A).**

6. **Instructions For transcription of newly introduced field :-**

6.1 It is again emphasized that **the correction for pay scales of pensioners may be proposed on the basis of pay scales of 4th CPC where the date of commencement of pension pertains to period prior to 01-01-1986 upto 31-12-1995. For Post 01-01-1996 upto 31-12-2005 cases, correction for pay scales of pensioners may be proposed on the basis of pay scales of 5th CPC.**

6.2 In RNPDS Masters, pay scale field is of 23 digits with 3 pay-slabs of 5 digits and 2 increment slots of 4 digits. In some scales pertaining to 4th CPC and 5th CPC, no. of slabs & increment slabs are more than 3 and 2 respectively. In these cases, **the correction for pay scale like 775-12-871-14-995-15-1030-20-1150 may be proposed as 007750012008710020 01150 which is of 23 digits. This will**

- incorporate 1st pay-slab (00775), first increment (0012) and 2nd pay-slab (00871) and last increment (0020) and last pay-slab (01150) leaving middle 2 increment (0014 & 0015) and their pay-slabs (00995 & 01030).
- 6.3 Similarly, for Post 2006 cases, correction for Pay-Band, for e.g. 9300-34800, may be proposed as 09300 for Ist pay-slab, 0000 for first increment and 34800 for 2nd pay-slab. Grade Pay, in these cases, will be shown separately.
- 6.4 For the existing cases, “Rank for Pension” field is moved to the field “Rank Last Held” (Instruction Order No. 99 may be referred). In case of variation between the two ranks correction may be proposed thru new GCF. For new cases transcribed thru T-Sheet, this field should not be left blank otherwise case will be rejected and will not be incorporated in the RNPDS Masters.
- 6.5 Similarly, for fresh PPOs issued as per 6th CPC, field w.r.t. Last Pay, Grade Pay, Military Service Pay, X-Group Pay, Classification Allowance and Non Practicing Allowance should be properly filled by the DPDOs and should not be left blank. For existing Post 2006 cases, these fields will be transcribed and updated in the RNPDS Masters thru Corr. PPO format on receipt of same.
7. **The sequence of processing for the Restructuring of RNPDS Masters is as follows :-**
- Make a new directory “temp05” and transfer masters from April 2009 to this directory.
 - Copy RNPDS Software **“Version No : 16”** sent with this Instruction Order to temp09 directory.
 - Execute program PDRESTR for restructuring of masters. This program will ask for the existing master name and new master name.
 - ❖ Change the existing master name to a new name by using “mv” command
mv gurhis gurhisold
mv gurhis.idx gurhisold.idx
Similarly, rename all other masters also.
 - ❖ Now execute PDRESTR program
Give existing history master name - gurhisold
Give new history master name - gurhis

Give existing pay master name	- gurpayold
Give new pay master name	- gurpay
Give existing pyt master name	- gurpytold
Give new pyt master name	- gurpyt
Give existing mon master name	- gurmonold
Give new mon master name	- gurmon

These new masters will be used to process pension schedules for the month of May 2009 for Parallel Processing.

- Now, make a Data entry of all Transcription Sheets, GCFormats and Corr. PPOs pertaining to the month of May 2009 on the new data entry formats given as attachment to this IO & transfer these files to temp09 directory.
 - Copy Routine Correction File for the month of May 2009 to this temp09 directory.
 - Now, process pension schedules for the month of May 2009 with restructured Masters, newly punched files on revised format (except routine correction file) and revised RNPDS Software. Compare the results with the already processed files of May2009 directory.
 - Copy these restructured RNPDS masters after parallel processing for the month of May 2009 to a regular processing directory of June 2009.
 - Do the regular processing using new RNPDS software Version16.
8. Any discrepancy noted during the parallel run may be conveyed thru E-Mail to this office.

ACGDA (EDPS)

No. EDP/NPDS/677

Distribution : As per standard list.

ANNEXURE – A

Instructions Regarding Record Lengths of Different RNPDS Masters :

1. When the program PDRESTR is executed, it will change the record length of all RNPDS Masters given as under :

- ❖ Record Length of History Master will be changed from current length of 583 to new length of 623.
- ❖ Record Length of Pay Master will be changed from current length of 197 to new length of 229.
- ❖ Record Length of Payment Line Master will be changed from current length of 100 to new length of 103.
- ❖ Record Length of Monthly Master will be changed from current length of 133 to new length of 135.

2. Similarly, due to introduction of new fields for incorporation of recommendation of 6CPC, record lengths of transcription formats for T-Sheet, GC Format and Corr. PPOs are also changed. The new record lengths are given below :

- ❖ Record Length of Transcription Sheet will be changed from current length of 558 to new length of 596.
- ❖ Record Length of General Correction Format will be changed from current length of 522 to new length of 556.
- ❖ Record Length of Corr. PPOs will be changed from current length of 504 to new length of 538.

3. Due to change in record length of T-Sheet format, position of sorting key is also changed to 453.
