EDP (NPDS) INSTRUCTION No. 106	DATED 05 /04/2010
LAST EDP (NPDS) INSTRUCTION No. 105	DATED 14/12/2009

Subject : Implementation of the recommendation of the Cabinet Secretary's Committee regarding revision of Pension in respect of Personnel Below Officer Rank (PBORs) discharged prior to 01-01-2006 – One Rank One Pension.

Summary:

1. RNPDS Software for updation of Master with released or invalided out status in respect of disability pensioners :-

- o Extraction & listing program.*
- o Data Entry formats for punching of said list.*
- o Validation/Updation Program for capturing of status RL/ID.*

2. RNPDS Software for printing of cases under Annexure A & B of Govt. letter dated 08-03-2010 required to be referred to PSA or Record Office.

- In pursuance of Government decision on implementation of the recommendation of the Cabinet Secretary's Committee regarding revision of Pension in respect of Personnel below Officer Rank (PBORs) discharged prior to 01-01-2006 issued vide Govt. Of India letter no. PC 10(1)/2009-D(Pen/Pol) dated 08-03-2010, need is felt to update the status of "Released" or "Invalided Out" cases in the RNPDS Masters in respect of all disability pensioners so that accurate revision of pension in these cases may be carried out.
2. It has been decided that a list of pensioners may be generated in respect of all disability cases for capturing of "Released" or "Invalided Out" status in the RNPDS Master in the absence of which revision of pension may result in either over payment or under payment for these cases.
 3. Module for printing of list mentioned at Para 2 above is as follows :-

*****pay, ***his PDRLSFLE ***ext**
*****ext SORT ***srt**

(Keys are at position 67 & 0 of length 6 & 7 respectively)

*****srt PDRLSFLP ***prt**

4. This list prints the details for all disability cases. The list contains details regarding Pension, Disability Pension, degree of disability and disability date up to and a blank column for status to be filled up for released or invalided out cases by the DPDOs. DPDOs are entrusted with the responsibility to check all these fields with respect to Pensioner's PC File and may change their entitlement as per PC file.
5. **Action To Be Taken By DPDOs :-** It is for information of all the DPDOs that RNPDS Master data is presumed to be correct as all the payments have been made previously on account of One Rank One Pension in 2007 and currently on account of revision of pension on account of 6th Central Pay Commission. However, if there is any discrepancy in any field of the list, correction on the list may be proposed for incorporation in the master.
 - **DPDOs are required to fill the blank status with either "RL" for released disability cases or "ID" for invalided out cases.** In case, this information is not available in the PC File, DPDOs are required to call for this information from the PSA.
 - If there is any incorrect information w. r. t. degree of disability or disability date up to or in any other field, correction may be proposed on the list.
 - DPDOs are also required to verify the entitlement of "WIP" cases to the effect that war injury element is merged with service element or not and accordingly RNPDS masters are showing the accurate information as per their PC Files in "WIP" cases. In case of disagreement between the two, correction for accurate rate of service element and war injury element may be proposed on the list.
6. This completed list may be punched on the format "RLS.DEF" (attached herewith). Only those cases will be punched where modification is proposed by

the DPDO Staff. The data entry operator will punch PPO Number, Pentype & HO Number of the case along with the field that is to be modified. In other words, all the information for one PPO No. is not required to be punched. For e.g. if disability date upto of a case is incorrect in the master, data entry operator will punch PPO Number, Pentype, Ho Number and disability date upto and its status Flag (RL/ID) for that case.

7. **The punched file will be validated and updated through the program PDRLSUPD.** In this program two options i.e. “VLD” or “UPD” is displayed. For validation of file use “VLD” option and for updation of Masters with error-free file, use “UPD” option.

8. The data entry format for punching of list is as under:

FIELD NAME	FIELD TYPE	FIELD LEGNTH
Hono-pre	Alpha	01
Honum	Numeric	05
Hono-suf	Alpha	01
PPO number	Mixed	20
Pentype	Alpha	03
Nameofpen	Alpha	35
ModeofPayt	Alpha	01
Bank	Numeric	06
Pension	Numeric	05
Dis-Pen	Numeric	05
Dis-degree	Numeric	03
Disdt-upto	Numeric	08
Fl-Status	Alpha	02

9. **PRINTING OF ANNEXURE A & ANNEXURE B:** In addition, there are certain cases which are not to be revised under this order and required to be referred either to Pension Sanctioning Agencies (Annexure A) or to Record Office (Annexure B) by the Pension Disbursing Agency. A module has been developed for printing list of these cases so that DPDOs may verify these cases quickly and forward these cases to PSA/ROs. **This will facilitate early revision**

of pension of the pensioners wherein reference to PSA is required. The cases are as under :-

- As per Para 14 of the Govt. letter quoted under Para 1 above, all such cases of PBORs who are in receipt of Special Pension, Invalid Pension and service element of Disability Cases for less than 15 years of qualifying service, are required to be revised by Pension Sanctioning Authority and Pension Disbursing Agencies shall refer such cases directly to PSAs on the format mentioned as Annexure-A to the Govt. letter dated 08-03-2010.
- Revision of pension in respect of Pre 01-01-2006 Territorial Army Pensioners may be carried out by the PSA and PDA are required to refer these cases also to PSA on the format of Annexure A to the above said letter.
- Similarly, revision of service element of war injury pension/liberalized disability pension in all cases of PBORs irrespective of their qualifying service shall also required to be done by the Pension Sanctioning Authority. Such cases shall also be forwarded by the PDAs to PSAs through Record office in prescribed format as Annexure B to the letter.

10 For referring these cases to PSA/ROs mentioned at Para 9 above, A module has been developed. In this module, a file will be extracted thru Program ANNEXEXT for all such cases which are required to be referred to PSA or to PSA thru Record Office (WIP cases). These cases will be printed by executing Program AANNEXPR and BANNEXPB on the format prescribed in the Govt. letter dated 08-03-2010 as Annexure A and Annexure B. The module is given as under:

*****pay, ***his, ***pyt ANNEXEXT ***ext**

The above Program extracts all cases to be printed as Annexure A or Annexure B.

*****ext AANNEXPR ***prt**

The above Program prints Annexure A for reference to PSA.

*****ext BANNEXPB ***prt**

The above Program prints Annexure B for reference to Record Office.

No sorting is necessary as all cases will be printed separately (i.e. one case on a Page) for onward transmission to PSA for Annexure A and for Record Office for Annexure B.

It is also stated that these Annexures are printed as per the information lying in the RNPDS Masters namely history master, pay master and payment line master. **The information printed in the Annexure A with regard to pension on the date of discharge, pension as on 01-01-1996, pension as on 01-01-2006 (revised under 1R1P orders) and consolidated pension on 01-01-2006 revised under 6th CPC orders may be verified before** sending it to PSA.

11. It is again emphasized that **DPDOs are invariably required to verify the entitlements of all pensioners pertaining to Pre-2006 period so that rejection of cases on revision under this order may be minimized and pensioners will get their arrears accurately and timely.**
12. RNPDS Software for extraction and printing of list for disability cases, for validation/updation of this list in the RNPDS Masters, Data Entry Format and for extraction and printing of Annexure A & B are attached herewith.
